

## Non-dimmable 40W LED Light Tube

MODEL NO. MS-TL120TG-CW-DC \* External driver  
MS-TL120TG-CW-C \* Built-in driver

### Specifications

Power consumption: 22W  
Input voltage: 100 ~ 240 VAC (DC), 50/60Hz  
Beam angle: 280 ~ 300°  
Operating temperature: -20°C ~ 40°C  
Dimensions: 1198(L) × Φ28.8 mm  
Color temperature: 5000K (CW)  
LED operating life: 50,000 hours  
Weight: 350 g  
Color Rendering Index rating: 80 CRI  
PF: 0.95 ~ 1.0

No Flicker. Even and soft light.  
\* UL standards and RoHS compliant.  
UV and IR free.

### Luminous flux: About 2000 lm Non-dimmable

Can be directly placed in existing T8 sockets. Energy efficiency. It consumes 70% less energy than conventional fluorescent. With unique design to maximize the aluminum heat sink. It's effective to keep the LED junction temperature below 70°C. Long life. It provides significant maintenance cost savings by lasting 5 times longer than conventional fluorescent. Direct view display lighting for hotel and office, Commercial and supermarket lighting, Warehouse illumination and under cabinets.
